- FOH & Monitor Consoles: Allen and Heath SQ5 digital mixer with 16x8 digital snake plus 16 analog channels for a total of 32 channels to FOH
- JBL PA System & Monitor Wedges downstage and Mackie stereo pair flown for sound effects and film.
- Array of mics for multiple uses

LIGHTING / VIDEO / PROJECTION

- Mac Mini running full version of Q - Lab for A/V and Lighting cues. Also possible to play audio and video through our projector.
- HD Blue Ray player
- 14-foot projector screen with complimentary in-house laser projector
- ETC Elements 2 lighting console controlling a mix of LED and Incandescent on the grid and in the house.

THEATRE SPECS (Historic indoor venue*)

- Stage dimensions: 18' x 19'
- Backstage area features dressing rooms and two bathrooms
- Seating: 79. There are 67 fixed seats; up to 12 additional chairs are permitted in a small alcove. NOTE: Fire regulations limit the total venue capacity to 95 people.
- Box office and lobby; lobby has concessions counter and limited seating.

LOAD-IN / PARKING

- Convenient street-level load-in with multiple access ways to the outside.
- Parking is on either side of the building. Use parking spots labeled either "Theater" or "Visitor." Hospitality and load-in times are TBD, per advance.

** During the COVID-19 pandemic, the Philipstown Depot Theatre has produced and presented events outdoors, on our patio, on a temporary stage. Please contact our Tech Director for info.*
